Reference.- Memorandum from Government, Revenue Department, No. 5182-B/27-1, dated 10th December 1927.

The Board has consulted the Forest Panchayat Officer and the Collector on the question of disreserving a portion of the Jummanobhanahalli reserve. Neither officer sees any objection to the disreservation. The consent of the panchay has also been obtained. After disreservation the panchayat will have about 1,300 acres under its management. The Collector reports that the grass on the portion proposed for disreservation is poor, that the whole area is covered with useless thorny growth, that the land is easily

cultivable and that it can be assigned to the depressed classes who own no land. The Board agrees with him and submits to Government for approval and publication in the Fort St. George Gazette a draft notification under section 24 of the Madras Forest Act V of 1882 disreserving a portion of the Jammanobhana halli reserve in the Kudligi taluk, Bellary district measuring 388.39 acres now under panchayat management.

The above area consists of red soil lands, fit for cultivation, containing only jungle growth and brushwood. There is an urgent demand for this portion of the reserve for cultivation purposes from the ryots of the adjoining - village Obalapuram - hamlet of Hurlinal. There is no other suitable land for assignment to the villagers. The disafforestation of these lands will not prejudiciously affect the needs of the villagers for pasture, firewood and agricultural implements. The Forest Panchayat at Obalapuram ---

village which has control over this area, has no objection. to the disafforestation of the lands. The disafforestation is therefore made with a view to make the lands ----- available for assignment to the villagers for cultivation.
